<b>Laundry Facilities at Altgeld Gardens</b>	<p>In order to allow all public housing residents access to the same amenities and services, regardless of the development they live in, individual laundry facilities – washer and dryer hookups – will not be provided in the apartments at Altgeld Gardens when the rehab work is completed.</p> <p>The cost to install laundry hookups for every apartment at Altgeld is estimated between \$7 million and \$9 million – money which has not been budgeted for this purpose.</p> <p>The CHA does not typically have laundry hookups inside the individual public housing units at any CHA housing development (this includes our senior properties, all of which have a laundry facility on-site). According to the CHA lease, major appliances are not to be hooked up by leaseholders or other unit occupants.</p> <p>However, the CHA is looking at creating multiple laundry facilities on-site in the Altgeld Gardens development so that all residents will have laundry services nearby. It is expected that these facilities would be contracted to a laundry services professional through the procurement process.</p>
